

## PECB Certified ISO 28000 Foundation

Become acquainted with the best practices of security management systems based on ISO 28000

### Why should you attend?

The PECB ISO 28000 Foundation presents the basic concepts and principles of security management and provides a general explanation of ISO 28000 requirements. This training course will enable you to learn about various aspects of a security management system (SeMS) based on ISO 28000, including the top management's commitment, security policy, security strategies, procedures, processes, and treatments, performance evaluation, and continual improvement as well.

After completing the training course, you can sit for the exam. If you pass the exam, you can apply for the "PECB Certified ISO 28000 Foundation" credential. The internationally recognized PECB Certified ISO 28000 Foundation certification, demonstrates that you have a general knowledge of ISO 28000 requirements for an SeMS and you are able to contribute in SeMS implementation projects.

| Who should attend?   | Learning objectives   |
